MEMO TO FILE:

Re: Bekins Minerals

ACT-021-002

Old Kirker Mine
Sec. 29 & 32, T. 37 S., R. 13 W.
Iron County, Utah

Exploration Work
New Harmony Field
Iron County, Utah

On Friday July 9, 1976, Mr. John Bradford of Bekins Minerals and two other gentlemen met with me to discuss the reclamation plan for a coal mine in the New Harmony Coal Field in Iron County.

The company also holds the rights to surface mine the Factory Butte surface coal mine, visited by the Board during June.

Bekins will notify the Division by letter that they will begin some evaluation work in the New Harmony Field, in preparation for a surface Anthracite coal mine. The evaluation work will entail the movement of more than five hundred tons of material but will be less than two acres in surface disturbance.

A reclamation plan will be based on the results of the evaluation work and will be forthcoming upon obtaining more information on the coal seam and subsurface soils.
